ITCM HE

Stainless Steel, Welded Seal, NTEP Certified Isolated Tension Cell Modules

Available in configurations with three or four mounting assemblies.
Picture is a representation of actual product.

The ITCM Series utilizes several Rice Lake Weighing Systems components to provide an unmatched level of performance in tank and hopper weighing applications and mechanical scale conversions. The ITCM HE incorporates clevis and unique rod-end ball joint assemblies to reduce the overall length to less than half of the traditional tension cell mounts, while providing correct load alignment. In addition, the load cell is completely electrically isolated from stray currents, which are a major cause of load cell failure. To complete the design, a grounding strap connects the two clevis assemblies to further provide safety to your load cells.

Module with RL20001 HE s-beam load cell.

Important: Read "Load Cell Mounting Hardware Safety Guidelines"
