

NU-53 Acid Storage Cabinets

Tall Vented Acid Storage Cabinets

NU-53 Acid Storage Cabinets are constructed from stress-relieved, fully seam-welded, white polypropylene. The outer cabinet shell, kick plate, and shelves are constructed from 1/2 inch (13 mm) polypropylene. The NU-53 Tall Double Door Cabinet has one fixed and two adjustable shelves with drip-proof lips. Cabinets come with a capped vent placed at the customer's specified location.

Each solid 1/2 inch (13 mm) polypropylene door features easy-to-clean handles, as well as hinges, and screws made of polypropylene. Doors are secured with Teflon® coated magnetic catches.

NU-53 Tall Vented Acid Storage Cabinet

Overall Dimensions	Width (A)	Height (B)	Depth (C)
NU-53-3660	36" (914 mm)	60" (1524 mm)	18" (457 mm)
NU-53-4260	42" (1067 mm)	60" (1524 mm)	18" (457 mm)
NU-53-4860	48" (1219 mm)	60" (1524 mm)	18" (457 mm)
NU-53-3684	36" (914 mm)	84" (2134 mm)	22" (559 mm)
NU-53-4284	42" (1067 mm)	84" (2134 mm)	22" (559 mm)
NU-53-4884	48" (1219 mm)	84" (2134 mm)	22" (559 mm)

The NU-53 features top and bottom shelves that are removable and adjustable in 2" (51 mm) increments using the provided pegs **[A]**. The shelves are also reversible, flat on one side **[B]** and with a 1/2" (13 mm) lip on the reverse side to contain spilled liquids **[C]**.
