

Painted Steel Laboratory Furniture

Trust ● Create ● Discover

History - Since 1951

Institutional Casework Inc. (ICI Scientific) is uniquely positioned to serve your complete project needs from steel, stainless steel, or custom wood laboratory and science casework to equipment, fixtures, work surfaces and fumes hoods.

ICI is privately owned, ensuring a primary focus on quality. This focus enables us to build a strong connection with our customers, employees, distributors and suppliers.

Introducing ICI Scientific - specifically designed and positioned to meet the requirements of Tier One laboratory specifications. ICI Scientific brings your preliminary concept to life; assisting from design through installation in partnership with our world-wide distributor network; delivering post-sale service and support through the lifetime of our products.

ICI Scientific is your single source for a complete laboratory. With brands steeped in a rich history, ICI Scientific is uniquely positioned to provide the complete laboratory project. Being privately owned, we ensure our primary focus is on quality, without the distraction of fluctuating stocks. We are focused on building a strong connection with employees, dealers, distributors, customers and end users.

All levels of laboratories and learning environments are created at ICI through flexibility, function, innovation and design.

American Made

ICI's multiple manufacturing facilities comprise 450,000 sq. ft. with 250 associates; ICI Scientific is a global provider of American Made products.

Wall Cabinet Construction

Standard Features

- 18 gauge steel cabinet top
- 20 gauge steel shelf
- 18 gauge steel cabinet side
- Rubber door bumpers, 4 each door
- Nylon roller catch
- 18 gauge steel cabinet bottom
- Zinc plated adjustable shelf clip
- Shelf clip mounting slots
- 18 gauge stile
- 20 gauge reinforcing channel, 1 each door
- 5 knuckle stainless steel hinges, 2 each door
- 11 gauge steel corner gusset, 4 each cabinet
- All wall cabinets furnished with a hanging rail
- Rear fillers are required at end of wall cabinet runs and sold separately
- Flush overlay wood fronts available in red oak, white maple and bamboo, with multiple veneer cuts and seven stain finishes

Tall Cabinet Construction

Standard Door Features

- 20 gauge interior and 18 gauge exterior panels
- Interior filled with sound deadening material
- 14 gauge steel reinforcement added at hinge locations
- 20 gauge horizontal reinforcement channel, one each door
- 3/4" thick veneer clad particleboard core with 3mm thick veneer edge banding in red oak, white maple, bamboo or other exotic veneers
- Door equipped with nylon roller catch
- Double doors with locks feature elbow catch on left door
- Stainless steel 2 3/4", 5 knuckle institutional hinges (2 per base unit and wall case door, 3 per upper and tall case door)

Whether your laboratory is in a university or research facility, ICI Scientific Steel Casework will provide a lifetime of strength and beauty.

- **Design Options:** Three Distinct designs allow you to tailor the appearance of your laboratory. All cabinet component parts of the sectional units are manufactured ensuring uniformity, interchangeability and accurate alignment
- **Field Convertible:** This design allows for conversion of cabinet door and drawer front styles, drawer suspension and cabinet horizontal and vertical rails, with use of simple hand tools.

Inset Steel

Provides slimline styling for your laboratory

Full Flush Overlay Steel

Offers a current, updated design

Full Flush Overlay Vertical Grain Match Wood

Combines the strength of steel and the aesthetics of wood

JVP106-48	Base Cabinet, Standing Height, 2 Door 2 Drawer, 48" Wide
JVP206-48	Wall Cabinet, 12" Deep, 2 Glass Swinging Doors
JVP232-306T	Wall Cabinet 16" Deep, 2 Solid Swinging Doors with Locks
JVP196-18T	Base Cabinet, Standing Height, 1 LH Door, Recessed Pull with Locks

CornerStone Color Options

Some of our more popular “two tone” selections are shown on each side. The top is the cabinet color and the bottom color represents doors and drawer faces. Note the option of wood doors/drawer faces. We offer “two tones” and “textured” at an additional cost; but limit two colors per project.

Please request samples from your ICI Dealer.

If you select a color other than these standards, ICI will match your selection. Check with your ICI Dealer since we have hundreds of color formulas on file. Your ICI Dealer will confirm availability and advise should there be an up-charge.

*Slate gray is available without texture. All colors are available with texture.

Steel Sitting Height Base Cabinets

- Sitting Height Cabinets are 27.5625" tall with leveling bolt zeroed out and 22" deep
- Lengths are as shown
- All door cabinets have 1 adjustable shelf
- See page 3 for cabinet styles and options
- Actual product dimensions may vary slightly due to style and hardware selection
- Open face cabinets can not be re-configured in to a door/drawer cabinet

Flammable Storage Base Cabinets - Slam Latch

- Solvent Storage Cabinets are specifically designed for the storage of flammable and combustible liquids.
- Construction meets the requirements listed by UFC, OSHA and NFPA No. 30-1993 and are UL listed.
- A 2" deep liquid-tight pan covers the entire bottom of the cabinet to contain liquid leaks and spills. Two diametrically opposed vents with spark screens are provided in the back of the cabinet as well as a grounding screw.
- Cabinets are labeled: FLAMMABLE - KEEP FIRE AWAY
- Different options include doors that are self-closing and synchronized so that both doors will always fully close. The right hand door is equipped with a three-point latching system that automatically engages when the doors close.
- Each door can also be equipped with a fusible link hold-open feature that ensures the door closes should the temperature outside cabinet exceed 165°F.

Flammable Storage Base Cabinets - Slam Latch

- Solvent Storage Cabinets are specifically designed for the storage of flammable and combustible liquids.
- Construction meets the requirements listed by UFC, OSHA and NFPA No. 30-1993 and are UL listed.
- A 2" deep liquid-tight pan covers the entire bottom of the cabinet to contain liquid leaks and spills. Two diametrically opposed vents with spark screens are provided in the back of the cabinet as well as a grounding screw.
- Cabinets are labeled: FLAMMABLE - KEEP FIRE AWAY
- Different options include doors that are self-closing and synchronized so that both doors will always fully close. The right hand door is equipped with a three-point latching system that automatically engages when the doors close.
- Each door can also be equipped with a fusible link hold-open feature that ensures the door closes should the temperature outside cabinet exceed 165°F.

- All door cabinets have 1 adjustable shelf
- Actual product dimensions may vary slightly due to style and hardware selection

Flammable Storage Base Cabinets - Slam Latch

- Solvent Storage Cabinets are specifically designed for the storage of flammable and combustible liquids.
- Construction meets the requirements listed by UFC, OSHA and NFPA No. 30-1993 and are UL listed.
- A 2" deep liquid-tight pan covers the entire bottom of the cabinet to contain liquid leaks and spills. Two diametrically opposed vents with spark screens are provided in the back of the cabinet as well as a grounding screw.
- Cabinets are labeled: FLAMMABLE - KEEP FIRE AWAY
- Different options include doors that are self-closing and synchronized so that both doors will always fully close. The right hand door is equipped with a three-point latching system that automatically engages when the doors close.
- Each door can also be equipped with a fusible link hold-open feature that ensures the door closes should the temperature outside cabinet exceed 165°F.

Steel Suspended Cabinets

- Suspended Cabinets vary in height, see part number tables below
- Lengths are as shown
- Actual product dimensions may vary slightly due to style and hardware selection

23.0625" High Flammable Storage Base Cabinets

- Solvent Storage Cabinets are specifically designed for the storage of flammable and combustible liquids.
- Construction meets the requirements listed by UFC, OSHA and NFPA No. 30-1993 and are UL listed.
- A 2" deep liquid-tight pan covers the entire bottom of the cabinet to contain liquid leaks and spills. Two diametrically opposed vents with spark screens are provided in the back of the cabinet as well as a grounding screw.
- Cabinets are labeled: FLAMMABLE - KEEP FIRE AWAY
- Different options include doors that are self-closing and synchronized so that both doors will always fully close. The right hand door is equipped with a three-point latching system that automatically engages when the doors close.
- Each door can also be equipped with a fusible link hold-open feature that ensures the door closes should the temperature outside cabinet exceed 165°F.

Stainless Steel Sinks

General Information

All stainless steel work surfaces and integral sink bowls are 16 gauge Type 304 stainless steel with a #4 satin finish. All work surfaces are supported from below with hat channels. Stainless steel tops are 1 1/4" thick. All stainless steel sinks tops are 1" thick with a 1/4" marine edge.

The maximum depth of flat tops (Style A) is 46". Tops with splashes (Styles B-L) can be a maximum depth of 42". The maximum length for all styles of tops is 84". Any tops longer than 84" will require a joint, contact your ICI representative for joint options.

All back and end splashes are 4" in height. Note: End splashes are not finished ends.

Tops having an integral sink bowl have a beaded edge. Each sink bowl is 20" wide, 17" front to back and 7" deep. The distance between double bowls is 1 3/4". Faucet holes (three) are 8" on center on single bowl tops and centered between bowls on double bowl tops.

How to Order:

The style and dimensional requirements are designated by completing a fourteen (14) space code designation for each top as follows:

1. The first space is the letter "S" indicating that the top will be stainless steel. The second space is the style designation (A-L) for the top being ordered. Select the style from the configuration shown on the next page.
2. The next four spaces are used to specify the desired length of the top to the nearest 100th of an inch (00.00"). Enter the total overall length measurement including end splashes (if applicable).
3. The next four spaces are used to specify the desired depth, including the back splash, of the top to the nearest 100th of an inch (00.00"). Enter the total overall depth measurement including back splashes (if applicable).
4. The last four spaces are used to provide the centerline measurement for location of sink bowl(s) on Styles F-M to the nearest 100th of an inch (00.00").

Example:

<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
Style	Length	Depth	Corner Edge	
A-M	00.00"	00.00"	to center of sink(s) Styles F-M

Laboratory Design Handbook

By: E. Crawley Cooper

The Laboratory Design Handbook describes the process, motivation, constraints, challenges, opportunities, and specific design data related to the creation of a modern research laboratory.

The information presented is based on a large pool of experience in the development of new and renovated laboratory buildings for universities, teaching hospitals, pharmaceutical companies, start-up biotechnology companies, and other types of industrial technology.

CRC Press, ISBN 9780849389962 - CAT# 8996

Prudent Practices in the Laboratory: Handling and Management of Chemical Hazards

Prudent Practices in the Laboratory has served for decades as the standard for chemical laboratory safety practice.

Developed by experts from academia and industry, with specialties in such areas as chemical sciences, pollution prevention, and laboratory safety. It provides guidance on planning procedures for the handling, storage, and disposal of chemicals. Designed to promote safety and includes practical information on assessing hazards, managing chemicals, disposing of wastes.

National Academies Press, ISBN 0309138647, 9780309138642

Web Resources

Lab Planning

www.labplan.org

This website (the result of a planning study performed by the National Science Foundation) suggests a planning process and offers criteria and standards that can help determine what additional or improved facilities are needed for programs. This interactive website follows the structure of the planning process and provides the tools, guidelines, and data necessary to plan and design high school science, math, and technology education teaching spaces

Americans with Disabilities Act (ADA)

www.ada.gov

Information on the ADA including relevant publications, federal resources, ADA design standards, technical assistance program, enforcements, code certification, business connections, status reports, new and proposed regulations, and the ADA program.

Occupational Safety and Health Organization (OSHA)

www.osha.gov

Complete reference source for OSHA compliance including assistance, grants, cooperative programs, safety and health topics, statistics, US-EU cooperation, and service standards.

National Science Teacher's Association

www.nsta.org

Information provided focuses on the teaching environment, from elementary to college classrooms. Paid membership enables access to journals and books. NSTA recommendations, the latest news, conventions, supplier's guide, and discussion boards.

American National Standards Institute (ANSI)

www.ansi.org

This is a paid membership website that offers documents on laboratory ventilation (Z9.5) for both rooms and fume hoods as well as information on American National Standards including procedures, guides and forms, accreditation requirements, appeals requirements, audit requirements, and governance committees. The site also provides information on IEC programs, regional programs, ISO programs, the standards boards, and panels.

National Science Education Leadership Association

www.nsela.org

This official website of the NSELA is dedicated to providing national leadership in efforts to improve science education. The quarterly newsletter is posted along with operations manuals, by-laws, career postings, and publications.

National Fire Protection Association (NFPA)

www.nfpa.org

Website dedicated to providing research information, public education, professional development as well as fire protection information, and flammable materials storage guidelines. This paid subscriber services offers many of the NFPA codes online.

Scientific Equipment and Furniture Association (SEFA)

www.sefalabs.com

This official website for SEFA gives paying members guidelines on construction and performance of laboratory equipment and furniture. Links to member companies offering laboratory products and laboratory design are provided.

General Plumbing Details

Minimum Spacing Between Fixtures

The drawing below show the allowable minimum spacing between service fittings on laboratory bench top.

Service and Rough-In Designations and Color Coding

Designation	Service	Color
E	Electric (120 Volt AC)	-
DT	Data	-
A	Air	Orange
G	Gas	Dark Blue
V	Vacuum	Yellow
N	Nitrogen	Brown
O	Oxygen	Light Green
S	Steam	Black
CW	Cold Water	Green
HW	Hot Water	Red
DW	Distilled Water	White
W	Waste	-
WV	Waste Vent	-

Recommended Supply Line Pressures

Service	Pressure
Hot and Cold Water	Local Pressure
Gas	0.216 psi
Air (Ordinary)	15 psi
Air (Air Powered Stirrer Operation)	40 psi
Vacuum (Ordinary)	18-22" of Mercury
Vacuum (High)	28.5" of Mercury
Steam (Low Pressure)	0-15 psi as required
Steam (High Pressure)	15-30 psi as required

Since ICI Scientific's inception, we have installed thousands of laboratory projects in sectors ranging from higher education, K-12, medical, pharmaceutical, industrial, and more. Our manufacturing culture of craftsmanship & design has driven the success of our laboratory projects since 1951. Experience shows through our quality.

Laboratory Products from ICI Scientific:
