Anemometer, Mini Environmental Quality Meter

Product #: **2850027**

USD Price: Contact Hach

Ships within 5 weeks

This Basic Mini Environmental Quality Meters is light weight small in size, allowing one-hand operation. Measures air velocity, temperature, air flow, wind chill, humidity/temperature, dew point temperature, wet bulb temperature, heat index, light, barometric pressure, altitude, Pt 1000 Temperature (optional probe required).

11 professional environmental instruments in 1
Air velocity, Temperature, Air flow, Wind Chill, Humidity/Temp, Dew point Temp, Wet bulb Temp, Heat index, Light, Barometric pressure, Altitude, Pt 1000 Temperature (optional probe required). Mode selectable.

Maximum and minimum memory with recall
Compare real-time readings with Min/Max displayed on screen.

Built-in microprocessor circuit assures excellent performance and accuracy
High precision humidity sensor with fast response time. Barometric sensor for precise atmosphere and altitude measurement.

Low-friction ball bearing mounted impeller design
Provides high accuracy at high and low air velocity.

Lightweight, ergonomic design
Small enough to hold in the palm of one hand.

Specifications

What's included?: Includes: Meter, CR 2032 DC 3V battery, Instructions and soft case.
