

Composed® touchless bathroom sink faucet with Kinesis™ technology and temperature mixer K-103C37-SANA-CP

FAUCETS

We understand that every commercial project is different in scale, user needs, traffic patterns, code compliance and surrounding materials. That's why we provide a range of faucets that go through a thoughtful design process and incorporate innovations that improve the overall experience. Whether you are a designer, developer, installer, maintenance staff or end user, you can be assured our products will meet your needs. To help you find the right solution, we offer manual and touchless faucets, various power options, vandal-resistant aerators and a variety of flow rates.

NEW TOUCHLESS FAUCETS WITH KINESIS™ TECHNOLOGY

KOHLER® touchless commercial faucets with Kinesis technology combine leading-edge designs with advanced sensor technology and commercial durability. The faucets carry over the design language from our residential faucet lines, allowing you to coordinate full collections in your projects. Kinesis technology conceals the sensor underneath the spout, giving you a clean aesthetic while delivering exceptionally accurate and reliable actuation in varying installation environments.

*If tempered or premixed water is desired, order thermostatic mixing valve K-99799-NA. Up to 4 faucets can be installed per valve at 0.5 gpm. See Price Book for optional aerators available for faucets.

TOUCHLESS FAUCETS WITH INSIGHT™ TECHNOLOGY

KOHLER® touchless faucets feature Insight technology, an adaptive infrared sensor that can analyze the surrounding area and calibrate the sensor to filter false triggers, thereby saving water. The faucets are powered by the KOHLER Hybrid energy system, featuring an energy cell that can provide maintenance-free power to the faucet for up to 30 years. And like all KOHLER commercial faucets, touchless faucets feature vandal-resistant aerators.
