## Track Dumpers

**WACKER  
NEUSON**  
*all it takes!*

### Confined area material handling

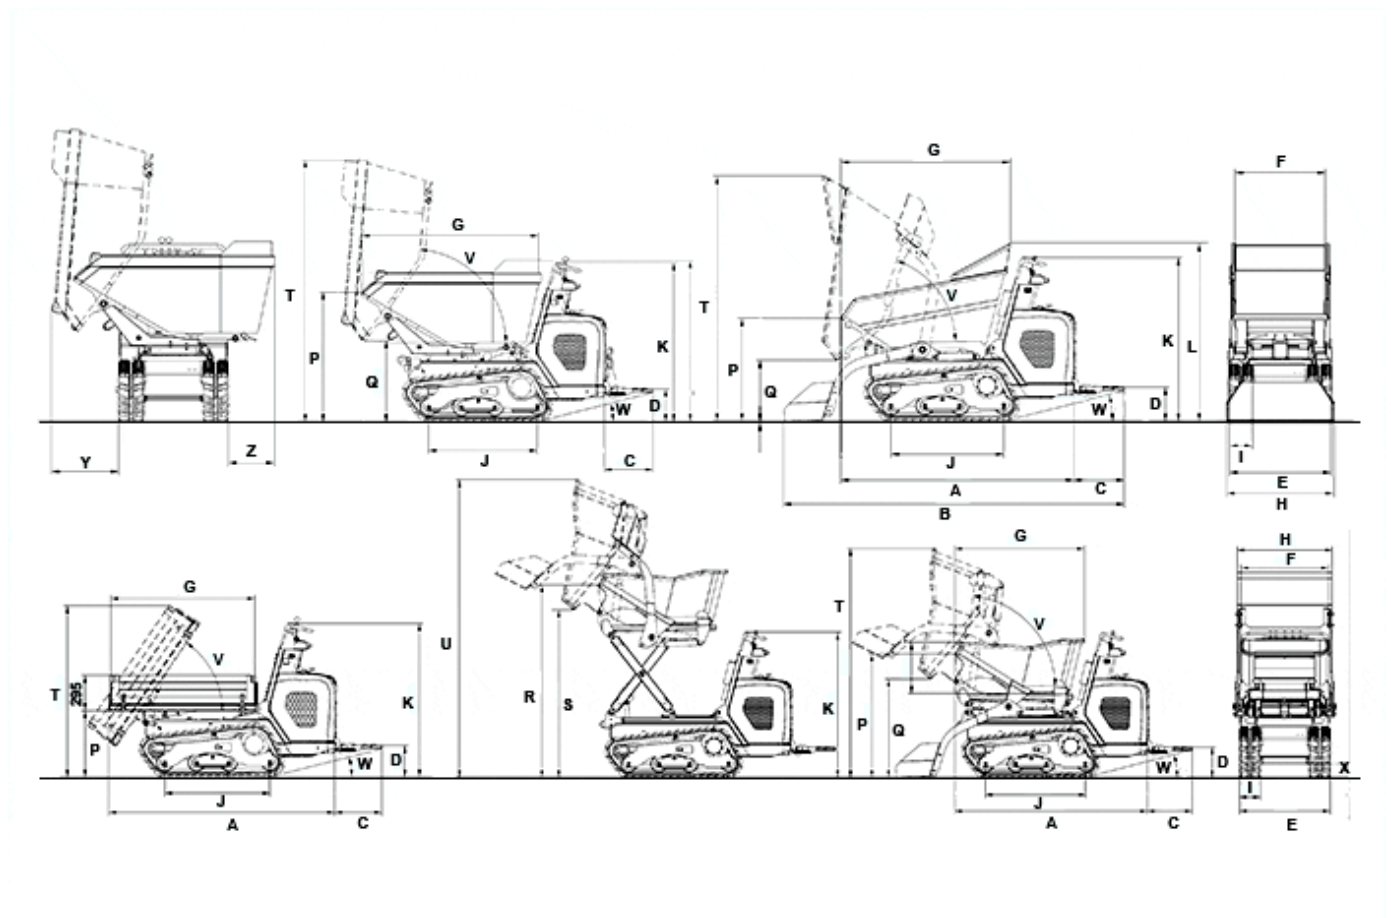

Wacker Neuson's DT10 track dumper is an excellent material handling solution for smaller jobs that need the advantages of a tracked machine. The compact machine is designed for smooth travel while maneuvering across rough terrain and over curbs. The DT10 is designed for high performance and lower cost of ownership.

- Hydrostatic drive provides for easy and comfortable operation without the need to change gears
- Quickly unload materials with precision with the choice of front tip skip with self-loading shovel, swivel tip skip or front tip skip platform
- Engine hood can be folded down for complete access to daily maintenance points for quick and easy servicing
- The rubber tracks and the optimum weight distribution reduce the ground pressure to prevent damage to sensitive surfaces and provides added stability
- Compact design for confined areas and can fit through narrow garden gates and doorways making them ideal for landscape, concrete, demolition, residential and rental applications
