

100-place Microtube Box with Hinged Lid

Microtube polypropylene boxes with stand freezing (to -80°C) and autoclaving. The 3-point hinge maintains its integrity during repeated use. A positive catch keeps the lid securely fastened. Alpha-numeric indexing is stamped inside the boxes for easy sample ID, and the clear lid allows visibility even when the lid is closed. Boxes are available in a variety of colors for coding samples and hold 100 x 1.5/2.0 mL tubes, cryogenic vials or chromatography vials. Measure 42 x 142 x 55 mm. A solid black box is available for light sensitive samples.

Ordering Information

Storage box with hinged lid, 100 x 1.5/2.0 mL

Cat. No.	Color	Qty/Pk
R8300	Natural	1
R8300-BLK	Opaque black for light sensitive samples	1
