Vorleight™ Lighting

The simplicity of art deco silhouettes.

Touches of aerodynamic design find new life in Vorleight™ lighting by Kohler, a whole-home collection inspired by 1930s Streamline Moderne architecture. The elegant forms embody the sleek, international style of art deco found in everything from living spaces and railroad cars to telephones.

Simple lines pair with dramatic curves and striking finishes in fixtures that range from chic one-light sconces to dramatic linear chandeliers. Functional, customizable, and always eye-catching, Vorleight offers an international appeal that's as elevated as it is inventive.

Timelessness meets innovation.

Art deco–inspired details include domed shades, decorative spheres, and cylindrical stems. Metal articulating shades bring innovation to the 1930s style, rotating and pivoting to direct illumination downward or laterally. This creates unmatched dramatic ambience and singular lighting experiences.

With a range of finish options, Vorleight™ lighting is ideally suited for both modern and traditional spaces.

One-, two-, and three-light sconces bring an elevated touch to any room—especially a bathroom or powder room—while the eight-light linear chandelier is built to make a statement, making it the perfect centerpiece in a foyer or above a dining table.
