

THE BOLD LOOK
OF **KOHLER**®

Arendela™ Lighting

Capture the magic of light.

A fifteenth-century gemstone cut and 1960s Murano glass serve as inspiration for the unforgettable Arendela™ collection by Kohler. The pieces feature glass disks held in place by delicate metal frames, catching and cascading rays of sparkling light that highlight the beauty of your space.

The shades are created with faceted briolette glass that create uniquely stunning lighting atmospheres. With fixtures ranging from one-light accent pieces to dramatic multilight chandeliers, Arendela is a captivating complement or an unforgettable centerpiece to any room.

LIGHTING

Dancing Glimmers of Light

Dappled glass spheres scatter light and delicately accentuate the details of any room.

TEN-LIGHT CHANDELIER // 29380-CH10B-2GL

Fine details take center stage.

The Arendela™ collection draws its style from the KOHLER Briquette™ sink, the briquette gemstone, and the Vistosi Murano glass-disk chandelier. These rich influences created beautifully imaginative fixtures with finely engineered details.

With the light and airy sophistication of faceted briquette glass disks, each showstopping fixture is expertly manufactured and designed to coordinate with KOHLER faucets and accessories.

Arendela™ Lighting

Select your fixture, choose your shade, and complete it with the perfect finish for your style and your space.

In the bathroom, consider pairing Arendela lighting with Composed® or Purist® bathroom sink faucets. In the kitchen, consider pairing with Crue® or Tone™ kitchen sink faucets.
