

Eliminate Cable, Satellite & IPTV Remote Controls on Cardio Equipment with **CAB**.

Eliminate

battery operated
remote controls

Control

ANY cable, satellite
or IPTV set top box

Install

back of the TV, console or
bottom of the cardio equipment

- Controls **ANY** brand set top box
- Use TV controls on cardio equipment
- Affordable
- Easy to install

- Compatible with integrated console controls from the most popular fitness equipment brands such as Startrac®, Precor®, Life Fitness®, Technogym®, Matrix®, True®, Cybex®, Spirit®, Intenza®, Stairmaster® and others.
- Enables cardio-console control of ANY cable, satellite or IPTV set top box . The set top box can be located next to the cardio equipment or remotely located, back in an A/V closet for instance.
- Broadcastvision first offered a solution for set top box control in 2011 and is the clear-cut market leader in this technology.
- The CAB allows a Broadcastvision TV to be controlled using the controls on the console. Broadcastvision screens are high-end commercial grade TVs at much less cost than cardio equipment models.
- Eliminates the hand-held battery operated remote control provided by the cable, satellite & IPTV provider.
- The CAB can also control set top boxes for Pro:Idiom® and Verimatrix™ decryption.

Control any set top box located next to, or away from, the cardio equipment.

- Enables cardio-console control of ANY cable, satellite or IPTV set top box . The set top box can be located next to the cardio equipment or remotely located, back in an A/V closet for instance.
- The CAB is small enough (3" x 1.5" x .75") that it can be hidden on the back of the TV, under the console or in a raceway system.
- The CAB keeps the set top boxes awake so they don't go into sleep mode.
- The CAB allows you to use integrated controls to control set top boxes on popular cardio equipment brands such as Startrac®, Precor®, Life Fitness®, Technogym®, Matrix®, True®, Cybex®, Spirit®, Intenza®, Stairmaster® and others.
- The CAB is plug-n-play and does not need to learn IR commands. Unlike some wireless devices that need to learn IR commands in the field, the CAB is preprogrammed prior to shipping and can be easily updated onsite if required.

CAB
Console Adapter Box

Eliminate

Battery Operated Remote Controls

Controls

Any Cable, Satellite or IPTV Set Top Box next to the cardio equipment or in an AV Room

Small Boxes (known as DTAs)
Larger Set Top Boxes

Installation

Install the CAB on the back of the TV, the console or at the bottom of the cardio equipment

CAB (console adapter box) Applications from Broadcastvision.

The CAB is a versatile technology that can be used for controlling cable, satellite & IPTV set top boxes or it can be used to control Broadcastvision TVs using the existing console controls with or without a set top box.

Cardio Equipment Brand TVs

Use integrated controls on cardio equipment to control the cable, satellite or IPTV set top box & eliminate the remote control. The CAB is compatible with attached and embedded touch screens.

Broadcastvision TVs

Replace the manufacturer TV or other TVs for a fraction of the cost using Broadcastvision personal viewing screens and control the TV and/or any cable satellite or IPTV set top box using the integrated controls on the cardio equipment .

The Universal Controller Applications from Broadcastvision.

The Universal Controller is a versatile technology that can be used for controlling cable, satellite & IPTV set top boxes and/or it can be used to control Personal Viewing Screens.

Replace faulty controllers from Life Fitness, Precor, Matrix, Startrac, Cardio Theater, CardioVision, Fantaay, MYE and others to control the personal viewing screen.

Use the Universal Controller on cardio equipment to control cable, satellite or IPTV set top boxes and eliminate the hand-held battery operated remote control. Note: Please check out our CAB (console adapter box) solution first to see if your cardio equipment is compatible. Our CAB solution allows you to control personal viewing screens and cable, satellite and IPTV set top boxes using the controls built into the console. **CLICK HERE.**

Channel Guide Use our controller when you want members to have access to the channel guide for top brand providers including DIRECTV, Dish Network and Motorola.

10-Key Pad Many fitness equipment TV control pads are limited with just channel up and down. Use our controller when you want a 10-key number pad so members can directly access the channel.
