

# The Beast

Breaking the boundaries  
of reach at 230 feet

## Bronto F230RPX

We break boundaries to be better – to unleash the beast within and use our instincts to serve those in need. North America's tallest articulated aerial platform enables you to break the boundaries of reach. Execute unparalleled high-rise operations with a 20-story vertical reach of 230ft, a built-in waterway, and a spacious rescue platform equipped with everything you need. Fight fires and save lives from nine floors higher than ever before. Release The Beast, break the boundaries of reach.

### F230RPX key features

- North America's tallest articulated aerial platform with working height of 230 ft (~20 stories)
- Spacious rescue cage with 1000lbs safe working load
- Articulation provides superior up-and-over capability and below-ground reach
- Compact design on a commercial chassis, flexible to maneuver
- Integrated, corrosion resistant telescopic waterway with 1000GPM capacity
- Fast and safe operations with user friendly Bronto+ control system
- Customizable to customers needs
