## CMX2402 Ride-on Brush Cutter

- 4WD and large tires enable smooth maneuvering through uneven, steep, or wet ground.
- Adjustable blade cuts to trim or leave brush as high as 6 inches.
- Infinitely variable hydrostatic transmission enables smooth adjustments while maneuvering over uneven terrain.
- Air suspended seats help reduce fatigue after long hours of operation, absorbing subtle vibrations much better than a typical coil spring.
- Front and rear projector headlights for operation in low light.
