S100 Compact Carrier with 180° Pivoting Dump

The Canycom S100 Compact Carrier with 180° Pivoting Dump Box is designed for excellent performance and maneuverability in extreme conditions. At only 39 inches wide, the S100 is perfect for fitting in narrow spaces. The 15 HP Kubota Diesel engine hauls up to 2,210 LBS and climbs grades up to 25° with ease.

Also available is the S100 **One-way Dump Flat Deck** with folding side panels.

▪

A hydraulically operated 180° swivel dump simplifies the loading and unloading of material even on what seems like impassable, narrow terrain, while the 90° dumping angle ensures an efficient unloading process. The 180° pivoting dump box helps reduce ground impact and increase

maneuverability in tight spaces, saving the operator time and money.

▪

A heavy duty rubber track undercarriage and chassis reduce impact on the ground with balanced weight distribution. Four sea-saw type rollers maintain a comfortable, even ride even in difficult terrain as well as help absorb shock to the undercarriage and keep maintenance costs down.

The S100 rubber track carrier offers state of the art performance to increase productivity with low maintenance costs to improve your bottom line.
