

The Swifttest Dispenser

The right amount of DPD with the Swifttest

The Swifttest is a powder dispenser that releases the correct amount of DPD (N,N-diethyl-p-phenylenediamine) into 10 mL samples at the press of a button.

The dispenser contains enough reagent for approximately 250 chlorine tests (free or total chlorine). A practical and attractively priced alternative, the Swifttest provides fast, easy reagent addition. Swifttest is ideal for laboratories with high sample throughput, and for analysis in the field. No need to open powder pillows, resulting in less packaging waste.

The handle of the Swifttest dispenser is color-coded for easy parameter recognition. And Hach DPD reagents contain no boric acid!

Technical Specifications*

Prod. No.	Parameter	Range	Method Name	Method Number	Quality Control	Number of tests	DR300	DR900	DR1900	DR3900	DR6000
2802300	Chlorine, Free	0.02 - 2.00 mg/L Cl ₂	DPD	8021	1426810, 2630020	Approximately 250	•	•	•	•	•
2105560**	Chlorine, Free	0.02 - 2.00 mg/L Cl ₂	DPD	8021	1426810, 2630020	Approximately 250	•	•	•	•	•
2802400	Chlorine, Total	0.02 - 2.00 mg/L Cl ₂	DPD	8167	1426810, 2630020	Approximately 250	•	•	•	•	•
2105660**	Chlorine, Total	0.02 - 2.00 mg/L Cl ₂	DPD	8167	1426810, 2630020	Approximately 250	•	•	•	•	•
