PACKAGING

PREMIER SOLUTIONS TAILORED TO YOUR NEEDS

The cannabis market is ever expanding and requires a wide range of heating solutions for varying processes. From growing to processing to packaging, Fulton is the only heat transfer equipment manufacturer capable of supporting all of the cannabis market's steam, hydronic and thermal fluid heating needs.

▼ CLEAN STEAM

Fulton can provide high-quality, Grade 3A dry steam that is suitable for direct contact with food products and free of chemicals and other contaminants.

▼ PRECISION CONTROL

Utilizing integrated combustion and operating controls, Fulton equipment can meet your most precise temperature and pressure requirements.

▼ CONSISTENT PRODUCTION

Fulton equipment can be customized to provide redundancy, minimizing downtime and supporting operational consistency for critical processes.

▼ CLIMATE CONTROL

Fulton's ultra-high efficiency condensing boilers and humidification steam solutions can provide the perfect growing environment for greenhouses.

LOW COST OF OWNERSHIP

▼ MINIMAL FOOTPRINT

Compact vertical designs allow Fulton boilers to use significantly less area than traditional designs. This opens additional square footage for other mechanical equipment and saves precious manufacturing floor space.

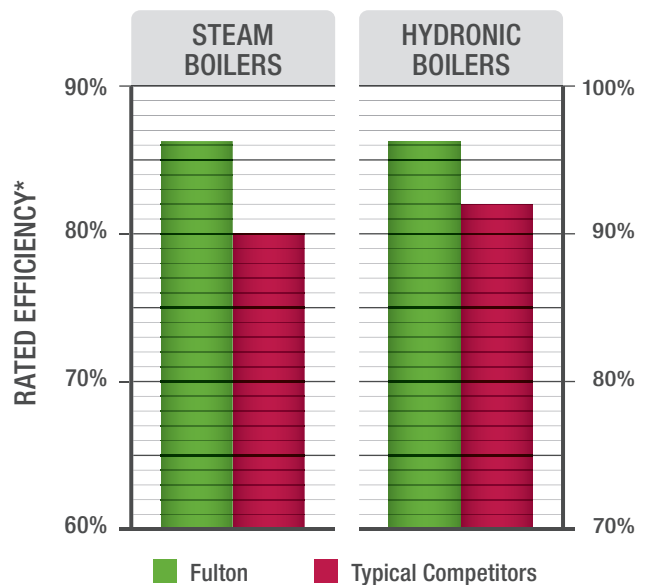

▼ EASE OF MAINTENANCE

Critical components are designed for easy service access to simplify maintenance and get you back up and running sooner.

▼ MINIMIZED DOWNTIME

Factory-trained sales and service technicians provide rapid local support across North America.

▼ INDUSTRY-LEADING EFFICIENCY

FULL RANGE OF HEAT TRANSFER SOLUTIONS

Fulton's diverse product offering includes premier steam boilers, condensing hydronic boilers and thermal fluid heaters to match your process requirements.

	STEAM BOILERS	CONDENSING HYDRONIC BOILERS	THERMAL FLUID HEATERS
RANGE	1.2 HP – 475 HP	750K – 12.0MM BTU/HR	200K – 14.0MM BTU/HR
APPLICATION	Clean Steam, Humidification, Sterilization, Culinary Steam, Food & Beverage, Direct/Indirect Heating, Packaging, Extraction	Office Heating, Greenhouse Heating, Snow Melt, Extraction	Food & Beverage, Indirect Heating, Packaging, Extraction

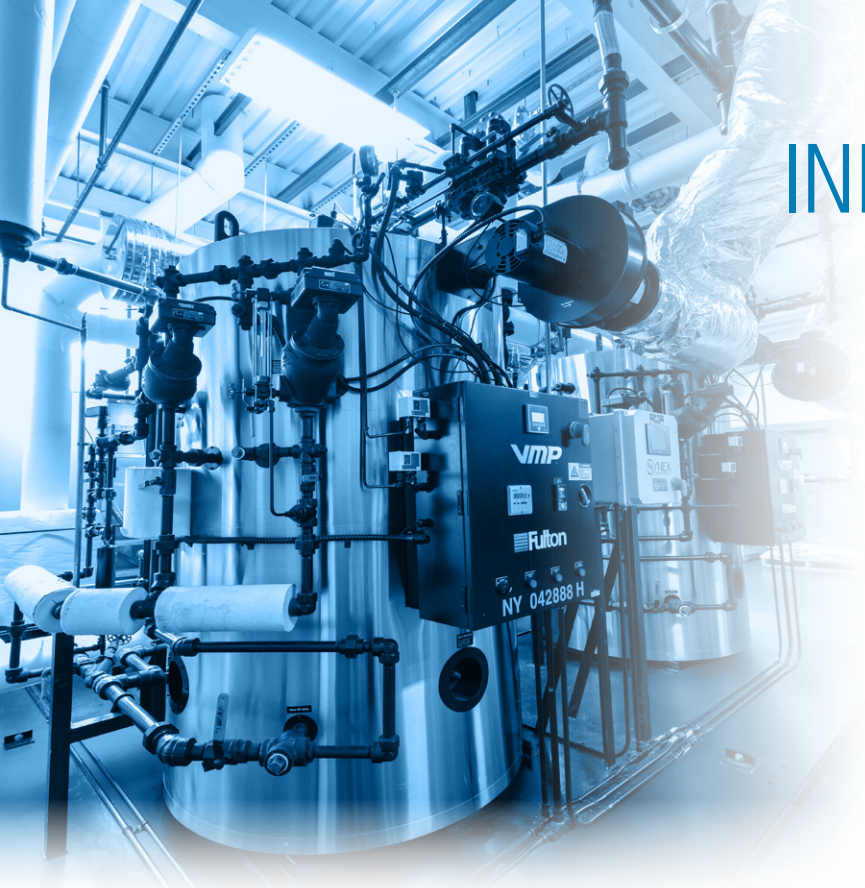

FULTON ENGINEERED SYSTEMS

Fulton can simplify your design process by providing a complete, package Engineered System solution based around your process needs.

As the demand for fast-paced, creative solutions to heat transfer applications grows, Fulton has excelled in the design and fabrication of Engineered Systems. With more than three decades of experience, Fulton is the industry leader in manufacturing pre-piped equipment and accessories.

Our team of Engineers, Technicians, and Project Managers can help you select all the right equipment for your application.

INDUSTRY LEADING WARRANTIES

5 YEAR WARRANTY
ON ALL PRESSURE VESSELS

10 YEAR WARRANTY
ON ENGINEERED SYSTEMS*

**Ten (10) year warranty applies to steam boiler pressure vessels included as part of a Fulton engineered system.*

70 YEARS IN THE MAKING

Backed by more than 70 years of engineering experience and innovation, Fulton is a worldwide leader in the development of premier heat transfer equipment.
