

# DR1900 Portable Spectrophotometer

## Lab methods in the palm of your hand

The DR1900 combines the ruggedness and portability of a field instrument with over 220 of the most commonly tested water methods.

### Carry Anywhere

The lightest, most compact portable spectrophotometer available easily goes where you need to go.

### Test What You Need

Analyze your water with more preprogrammed methods than any other portable spectrophotometer, or easily create your own methods to suit your unique needs.

### Ensure Accuracy in the Field

Wavelength range of 340 to 800 nm provides accuracy typically seen only in laboratory instruments.

### Make Testing Easier

Simple, easy-to-use interface plus the widest range of vial sizes makes testing flexible.

### Take Into Field Environments

Rugged construction keeps the elements out, which means you can test in the most demanding conditions.
