Kanion Co High ERP 3D DC Inverter Wall Split AC Units

Smart and User-Friendly Controls: We believe in putting control in your hands. Our Wall Split AC Units come with intuitive and user-friendly controls, allowing you to easily adjust temperature settings, fan speed, and operating modes. With advanced features such as programmable timers and remote control functionality, you can customize your cooling or heating preferences with ease.

Quiet and Peaceful Operation: Say goodbye to noisy air conditioners. Our Wall Split AC Units are designed to operate quietly, ensuring a peaceful ambiance in your living or working space. Enjoy undisturbed relaxation, focused work, or a good night's sleep without the constant hum of an air conditioner.

Sleek and Space-Saving Design: Kanion Co's Wall Split AC Units feature a sleek and modern design that blends seamlessly with any interior decor. These units are compact and space-saving, making them ideal for installations in various room sizes or limited spaces. Experience efficient cooling and heating without sacrificing valuable space.

Air Purification and Filtration: We prioritize the quality of the air you breathe. Our Wall Split AC Units are equipped with advanced air purification and filtration systems that effectively remove dust, allergens, and pollutants from the indoor air. Breathe cleaner and healthier air while enjoying the comfort of our cooling or heating solutions.

Product Description

Looking for a powerful and energy-efficient air conditioning solution that provides superior cooling performance and significant energy savings? Look no further than Kanion Co's High ERP 3D DC Inverter Wall Split AC Units. Designed with advanced technology and a focus on energy efficiency, our units are the perfect choice for residential and commercial spaces.

GENERAL SPECIFICATIONS														
Model Number			KWSM-09R32IHF		KWSM-12R32IHF		KWSM18R32IHF		KWSM-24R32IHF					
Power supply			220-240V, 1Ph, 50Hz											
Fin type			Golden Fin											
Cooling	Capacity	Btu / hr	9000		12000		18000		24000					
Heating			10000		13000		19000		25000					
Controller Type			Remote Controller (standard) & Smart App Controller compatible with all major A.I. voice assitants (optional)											
Refrigerant type			R32 environmentally friendly refrigerant											
Compressor			GMCC											
			Fixed Frequency											
Operation temperature			Indoor (Cooling)		Outdoor (Cooling)		℃		17 - 32					
									-15 - 50					
									0 - 30					
									-15 - 30					
Applicable area			Minimum		m2		12		16		24		32	
Loading quantity 20'GP / 40'GP / 40'HQ			set		132 / 274 / 305				66 / 137 / 156				84 / 180 / 208
